The School Context – What sort of school are we?

Milton Road Primary School is one of the largest primary schools in Cambridge, serving a residential area a short walk from the centre of Cambridge. It is newly built with a high standard of ICT and other facilities. In the summer 2006, Ofsted inspectors judged it to be an outstanding school.

- Most children enter the school having experienced some form of pre-school provision, often from a nursery school.
- Pupils with a very wide range of attainment, background and ethnicity attend the school. When compared with the national average the numbers of pupils with special educational needs is broadly in line and the percentage of pupils who speak English as an additional language is high.
- Children of visiting scholars and their families contribute positively to the cultural diversity of the school. The school has developed international links and is keen to further them whenever possible.
- Overall, pupils come to school well motivated; they work hard and make the most of their educational experiences. Their parents value the educational provision, are extremely supportive and eager to work in close partnership with the school. A significant number of parents give their time each week to help in many subject areas on a regular basis.
- The school enjoys an excellent reputation for creative arts, sporting achievements and innovative developments in ICT and is keen to develop initiatives beyond the demands of the national curriculum.

- The school takes great pride in meeting the individual needs of all pupils. Attainment at the end of the key stage is in line with or above that of similar schools in English, mathematics and science.
- Music is a major strength with up to one third of pupils in Key Stage Two receiving peripatetic instrumental music tuition during school hours.
- The school has a long-standing reputation for the provision of extra-curricular activities – at least thirty different clubs per week.
- The majority of families have on line computer systems at home.
- The local community is used extensively to broaden and enrich the quality of education.
- An energetic PTA supports the life of the school, raising substantial funds each year to enrich educational provision. Parents work all year round to develop and enhance the outdoor environment.
- The school hall is regularly hired for community use with an emphasis on musical and sporting activities. There is also a community room which is used by Kidscape for before and after school childcare.

These aims are designed to ensure that the school meets the needs of all, taking account of gender, ethnicity, culture, religion, language, disability, ability, sexual orientation, age, and social circumstances. We strive to include and engage all pupils and to prepare them for full participation in a diverse society. This school will take steps to:

- promote equality of opportunity and access
- promote racial equality and good race relations
- oppose all forms of prejudice and negative discrimination
- ensure pupils with a disability have access to the school buildings and to the curriculum.

Our approach to promoting equality

The overall objective of the school's Equality Policy is to provide a framework for the school to pursue its equality duties to eliminate unlawful discrimination and harassment; promote equality of opportunity; and promote good relations and positive attitudes between people of diverse backgrounds in all its activities.

Through the Equality Policy, the school seeks to ensure that no member of the school community or any other person through their contact with the school receives less favourable treatment on any grounds which cannot be shown to be justified. This covers race, colour, nationality, ethnic or national origin, religion or belief, gender, marital status, responsibility for children or other dependants, disability, sexual orientation, gender reassignment, age, trade union or political activities, socio-economic background.

The principles of this policy apply to all members of the extended school community – pupils, staff, governors and parents/carers.

A cohesive community

Our school is a community primary school just north of the centre of Cambridge. We are one of a number of schools in north Cambridge which feed into Chesterton Community College and which, together with the College, form a community of schools called Schools North of the River. This community of schools share expertise and resources where possible and form a mutually supportive group.

Most children enter the school having experienced some form of pre-school provision, often from a nursery school. Pupils with a very wide range of attainment, background and ethnicity attend the school. When compared with the national average the numbers of pupils with special educational needs is broadly in line and the percentage of pupils who speak English as an additional language is high. Children of visiting scholars and their families contribute positively to the cultural diversity of the school. The school has developed national and international links and is keen to further them whenever possible. At present, the school has forged links with a school in Ghana and one in Wales.

An energetic PTA supports the life of the school, raising substantial funds each year to enrich educational provision. Parents are very committed to helping the school in many capacities, most especially as volunteer helpers within school and out on trips.

The local community, the City of Cambridge and other resources in the area are used extensively to broaden and enrich the quality of education.

The school hall is regularly hired for community use with an emphasis on musical and sporting activities. There is also a community room which is used by Kidscape for before and after school childcare.

In order to achieve **a cohesive community**, we endeavour to:

- Promote understanding and engagement between communities
- Encourage all children and families to feel part of the wider community
- Understand the needs and hopes of all our communities
- Eliminate discrimination
- Increase life opportunities for all
- Ensure teaching and the curriculum explores and addresses issues of diversity

Race Equality

The school is fully committed to meeting its obligations under the Race Relations Amendment Act 2000 and this is reflected in the policy statements above. To meet the specific duties of the RRAA 2000 we will:

- ensure that all pupils and staff are encouraged and able to achieve the best of which they are capable
- respect and value differences between people
- prepare pupils for life in a diverse society
- make the school a place where everyone, taking account of race, colour, ethnic or national origin, feels welcomed and valued
- promote good relations between different racial and cultural groups within the school and within the wider community
- ensure that an inclusive ethos is established and maintained
- acknowledge the existence of racism and take steps to prevent it
- oppose all forms of racism, racial prejudice and racial harassment
- be proactive in tackling and eliminating unlawful discrimination

Disability Equality

The aim of our school is to ensure that wherever possible disabled people have the same opportunities as non-disabled people in their access to education and to prevent any form of unlawful discrimination on the grounds of disability.

Appropriate measures will be taken to ensure that statutory duties are met:

- not to treat disabled pupils and prospective pupils less favourably than other non-disabled pupils
- to take reasonable steps to avoid putting disabled pupils at a substantial disadvantage

In addition, steps will be taken to ensure that employees and those working with the school's authority:

- support the governing body in meeting their duties
- do not act in such a way that renders the governing body liable to a claim of discrimination

Staff and those working with the authority of the school are made aware of the basic requirements of the Disability Discrimination Act and Disability Code of Practice for Schools.

There will be occasions where the treatment of disabled children is different from non-disabled students. In such cases the school will be able to demonstrate that such treatment is justified. The reason for the different treatment will be both material to the circumstances of the particular case and substantial (e.g. health and safety reasons). The school will also demonstrate that all reasonable steps have been taken to avoid the disabled pupil being placed at a significant disadvantage.

Careful consideration will be given to how participation can be best facilitated. A number of factors may be part of this consideration including:

- the need to maintain academic, musical, sporting and other standards
- the financial resources available
- the cost of taking a particular step
- the extent it is practicable to take a particular step
- health and safety requirements
- the interest of other pupils

The consideration of these factors may lead to the adoption of certain reasonable adjustments rather than others.

We recognise that the duty to make reasonable adjustments for disabled students is anticipatory. To meet this duty we will review policies, practices and procedures to ensure that we do not discriminate against disabled pupils. Examples of the specific measures we will be taking include:

- ensuring providers of facilities for school trips and extra curricular activities can accommodate disabled pupils before making bookings in advance

- reviewing staffing arrangements to ensure that the school is in a position to administer medication if required in exceptional circumstances
- ensuring there are special arrangements in place for disabled pupils who are taking examinations
- ensuring our policies and procedures for bullying cover issues of disability
- working closely with parents and disabled pupils to identify potential barriers to participation and devising reasonable adjustments to overcome them
- ensuring that staff are briefed on the Disability Code of Practice for schools issued by the Disability Rights Commission

We will also take reasonable steps to find out whether prospective or existing pupils have a disability. This will include:

- creating an ethos and culture which is open and welcoming so that parents and pupils feel comfortable about sharing information about the disability
- asking parents during the admissions process about the existence of any disability
- providing continuing opportunities to share information (e.g. when seeking permission to go on a school trip)
- monitoring levels of participation, achievement and behaviour that may indicate a disability that has not been identified and referring the matter to specialist agencies

Our school believes that improving access to education and educational achievement by disabled pupils:

- ensures equality of opportunity
- encourages full participation in society
- improves the likelihood of independent living and economic self-sufficiency in the future

We believe that disabled people should be valued for what they can do rather than labelled for what they cannot.

- We improve the accessibility of the physical environment within the resources available in response to needs arising.
- We identify and monitor the performance of different groups of pupils: boys/girls; minority ethnic groups; SEN; disabled pupils; “Looked After” pupils; EAL; chronic medical conditions.
- Assessment procedures take into account the SEN Code of Practice (2001) and its Toolkit; the needs of EAL pupils; the needs of minority ethnic pupils.
- We have procedures for involving all parents/carers in their children’s learning and we monitor this involvement and the outcomes.
- We have procedures for involving all pupils in their own learning and we monitor this involvement and the outcomes.
- Educational inclusion is an integral part of the school development programmes, continuous professional development and governors’ meetings.
- We deploy resources to pupils with SEN in excess of the expectations of the SEN Code of Practice 2001

Gender Equality

The school promotes equality of opportunity between males and females and endeavours to eliminate all unlawful sex discrimination and harassment. Conditions for learning (eg. environment, teaching and learning, resources, social and emotional aspects of learning) provide equal access and opportunities to both boys and girls.
