Use of school-based equipment

When using the school's ICT equipment and other information systems, I have understood and will comply with the following statements:

- I will access the internet and other ICT systems using an individual username and password, which I will keep secure. I will ensure that I log out after each session and never allow other users to access the internet through my username and password. I will report any suspicion, or evidence that there has been a breach of my personal security in relation to access to the internet or ICT systems, to the e-safety coordinator, Nina Burton (Deputy Head and Safeguarding Lead).
- All passwords I create will be in accordance with the school e-safety Policy. I will ensure that I use a suitably complex password for access to the internet and ICT systems.
- I will not share my passwords.
- I will seek consent from the e-safety coordinator or headteacher prior to the use of any new technologies (hardware, software, cloud-based services) within school.
- I will not search for, download, upload or forward any content that is illegal or that could be considered an offence by another user. If I encounter any such material, I will report it immediately to the e-safety coordinator or Headteacher.
- I will take a professional and proactive approach to assessing the effectiveness of the internet content-filtering platform in relation to the educational content that can be viewed by the pupils in my care.
- I will not attempt to bypass any filtering and/or security systems put in place by the school. If I suspect a computer or system has been damaged or affected by a virus or other malware, I will report this to the e-safety coordinator and our ICT support service, Irvine Knight ICT Solutions via helpdesk@irvineknight.co.uk
- I understand my personal responsibilities in relation to the [Data Protection Act](#) and associated [UK GDPR](#) legislation around the privacy and disclosure of personal and sensitive confidential information.
- I will take reasonable precautions to ensure that any devices (laptops, tablets, cameras, removable media or phones) are stored in a secure manner when taken off site (car / home/ other location). Devices will not be stored in a car overnight or left in sight when not in use, e.g. by an open window or on the back seat of a car.
- I will only use school-owned or provided portable storage (USB sticks, SSD cards, portable hard drives etc).
- I will ensure that any personal or sensitive information taken off site will be situated on a school-owned device with appropriate technical controls such as encryption/ password protection deployed.

- Any information asset, which I create from other information systems, which could be deemed as personal or sensitive will be stored on the school network and access controlled in a suitable manner in accordance with the school data protection controls. (For example, spread sheets/other documents created from information located within the school information management system).
- I will not download or install any software from the internet or from any other media which may compromise the school network or information situated on it without prior authorisation from the headteacher or e-safety coordinator.
- I understand that the use of computer systems without permission or for inappropriate purposes could constitute a criminal offence under the [Computer Misuse Act 1990](#) and breaches will be reported to the appropriate authorities.
- I understand that my files, communications and internet activity may be monitored and checked at all times to protect my own and others' safety, and action may be taken if deemed necessary to safeguard me or others.
